

Dear parents,

"Transportation" was the theme of the month of June. Children learned that to facilitate lives, several means of transport were invented over the years such as car, bicycle, train, plane ...

They learned that the train moves on the rails, the car on the road in accordance with the road code, the plane takes off from the airport and lands there, and the boat floats in the sea.

They learned the following vocabulary : Locomotive, Ambulance, Airplane, Tractor, Fire Truck, Motorcycle, Train, Bicycle, Bus, Truck, Car, Traffic lights, Boat

A car

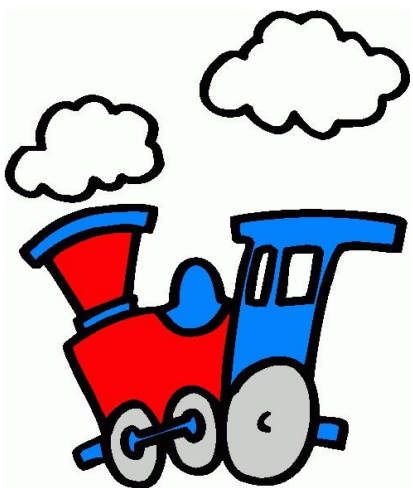

A bus

An airplane

A boat

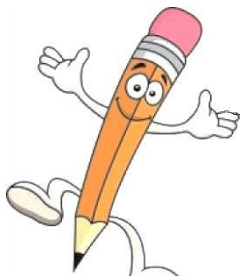

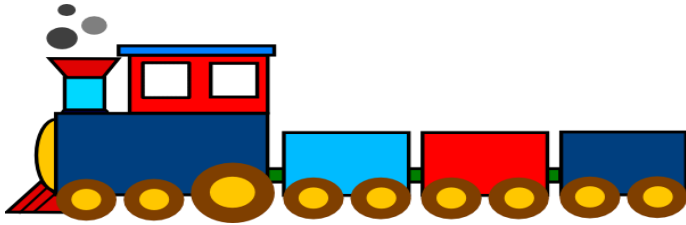

A train

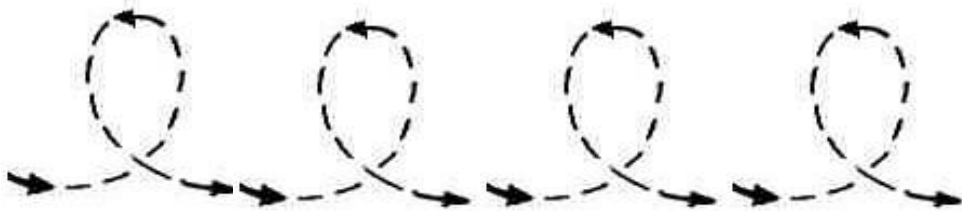

Traffic lights

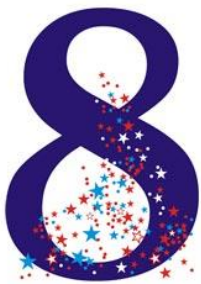

Children learned to distinguish between long/short :

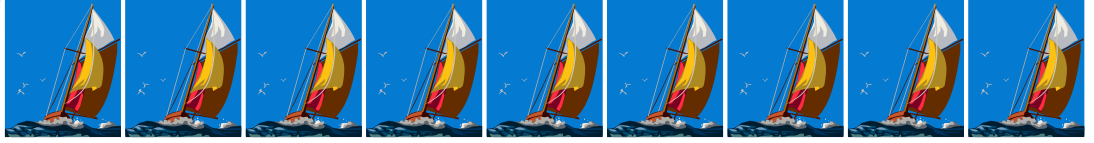

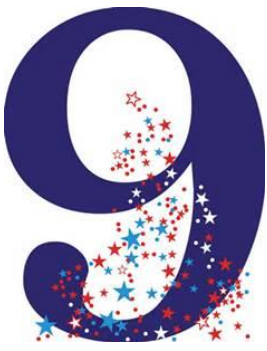

To trace curls

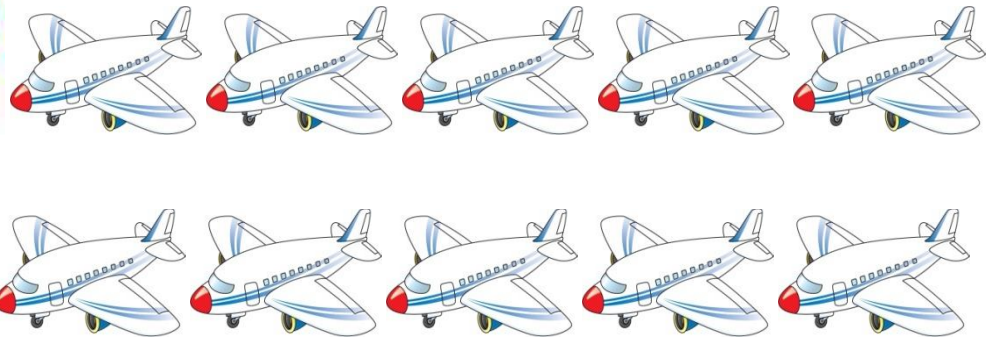

To make collections of 8 objects:

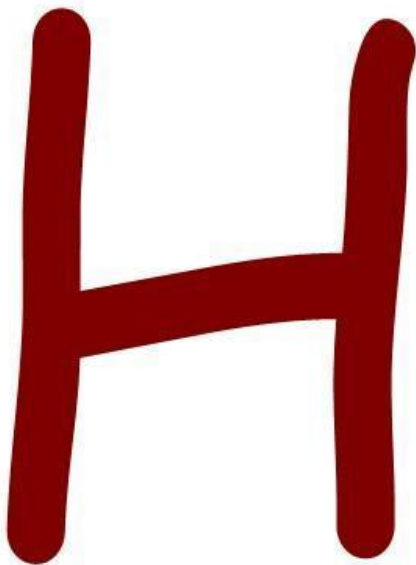

9 objects

10 objects

They came up with words that start with letter

Hand

Helicopter

Hat

Heart

As for Montessori activities, kids performed:

Knobbed cylinders

Cylinders boxes

Fish bubbles

Sandpaper numerals

This month children celebrated father's day each in his own way. Few performed sports activities in a sports club, others attended an animated show and others participated into fun and educational activities:

Finally Summer camp is here and children are so excited to perform water activities, sports activities and a lot of outings
