

Dear Mom and Dad,

Hooray! It's time to go back to the nursery and join my friends! I'm so excited to begin a new year full of fun and learning. I can't wait to tell you all about the great time I am having with my friends and teachers.

Our first theme was "Back to School". While singing, playing, listening to storytelling, and doing many interesting activities we learned about our classroom. We also talked about the importance of making friends, sharing class materials, and following rules so that learning and playing would be fun.

The most interesting part of the theme was meeting my friends and teachers, talking about the special things we did during summer, and learning about the objects and materials found in class such as: coloring pencils, crayons, paint, paint brush, playdough as well as charts related to weather and attendance.

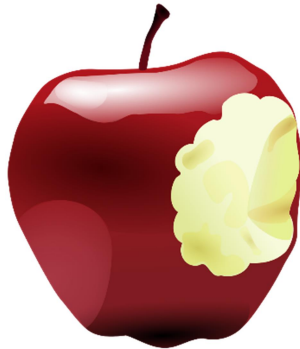

Language:

During language sessions, we enjoyed listening to many stories related to the theme.

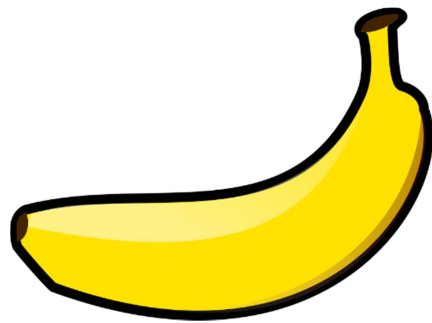

We are now able to differentiate between "boy", and "girl".

As a 2 year old, I was exposed to the letter A, such as: An Apple

As a 3 year old, in addition to the letter A, I was exposed also to the letter "B", such as: A Banana

We also learned names of animals as well as objects related to Fall such as: An acorn, A squirrel, A snail and Autumn leaves...

WELCOME FALL!

A Squirrel

A Snail

Autumn leaves

An Acorn

Science:

We learned the concept inside/outside, and we played different activities related to this concept such as hopping inside then outside a hoop.

As a 2 year old I discovered the color red,

As a 3 year old, in addition to the color red, I was exposed also to the yellow and orange colors

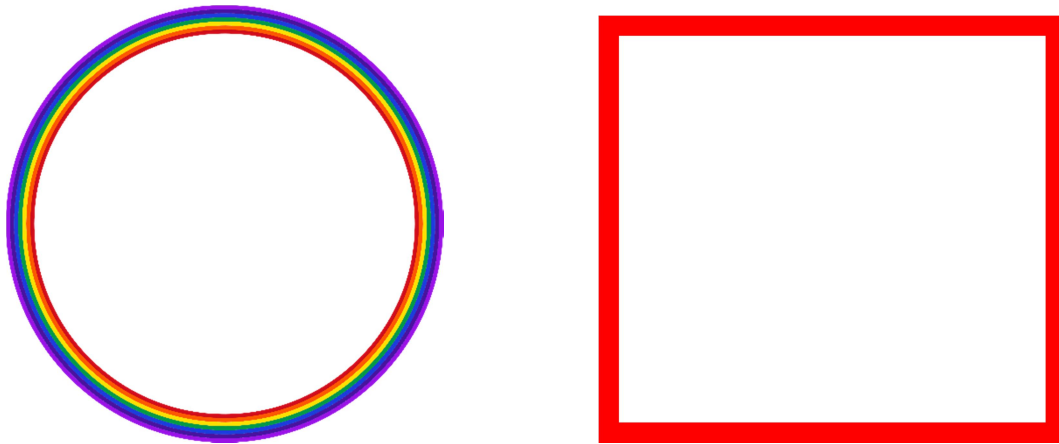

Math:

We started learning numbers. As a 2 year old, I can recognize the number 1 and as a 3 year old, I can also recognize the number 2 and match the numbers to the corresponding objects.

As a 1 year old, I learned to recognize the circle and as a 3 years old I learned to recognize in addition to the circle, the square.

Arabic

Daily Arabic sessions were so much fun. Each day we learned new words and songs and listened to interesting stories.

Art:

Our art teacher introduced different art and craft related to the theme which were lots of fun.

Events:

The best part was our events. As a 2 and 3 year old we went on a field trip to the public garden where we observed the change in the colors of the leaves and enjoyed picking and eating apples. The 1 year old did activities related to apple picking in their classes.

Halloween was so much fun. We learned about pumpkins and enjoyed carving real pumpkins and cooking cookies related to the theme.

Mom and dad, I hope that you have enjoyed reading my letter. May you review with me all the vocabulary words, concepts, colors, shapes, numbers and letters I discovered during September and October?

Now I'm eagerly waiting for my teacher to introduce the new theme "Head to Toe". It will be nice if I can bring to class a story related to the theme Hygiene and body parts to share with my friends.

And guess what? I am so excited because my teacher told me that Spanish sessions will be introduced in November for all ages.
